#### 4. Research Funds

1. The project: A review and synthesis of research on behavioral science. The university income budget for the fiscal year 2011.
2. The project: The research synthesis on psycho-social characteristics related to quality of life among Thai elderly in Thailand. The government budget for fiscal year 2012.
3. The project: A review of the publications in Journal of Behavioral Science. The institute income budget for the fiscal year 2014.
4. The project: Characteristics of the excellence and key success of doing the excellent research of researchers receiving the National Excellent Researcher Award. The government budget for fiscal year 2017.
5. The project: Researcher spirituality and desirable characteristic of researchers in behavioral science in the era of Thailand 4.0. The institute income budget for the fiscal year 2017.

#### Teaching Courses/ Classes:

---

Master's degree

RB 541 Social Foundation and human behavior

RB 581 Socialization and human development

PhD's degree

RB 703 Qualitative research

RB 781 Work socialization

#### Training and Development Experiences:

---

1. Workshop on "Case Study Methods and Small-n research design" IPSA-NUS Summer School in Research Methods in Social and Political Science, National University of Singapore during 25 June-6 July, 2012.
2. International Conference: New Directions for Research and Evaluation "Meta-Ethnography Research, Mixed Synthesis Research and Collaborative Evaluation" by Faculty of Education and Graduate School, Naresuan University during 10-13 January, 2014
3. The training and workshop on "Innovative Social Science Research Methodologies" by Institute of Population and Social Studies during 4-13 July, 2015.
